

## TAFE VC Courseware

The TAFE Virtual Campus (TAFE VC) contains hundreds of learning materials available for trainers and teachers to use!

Go to the TAFE VC **Online Courseware Catalogue** and you will find a wide range of courses including fashion, horticulture, arts, business, electronics, animation, childcare, hairdressing, building and construction, hospitality, information technology, nursing, laboratory operations, library services, management, natural resources, health and safety and many more.

## Your simple steps to the Online Courseware Catalogue

- Visit [www.tafevc.com.au](http://www.tafevc.com.au) > **Teachers** > **Courseware**
- Search the **Online Courseware Catalogue** for your desired course by its unit/module name, qualification/course or by using the keyword search
- View information on the course
- Click **Access Unit/Module** to view the course
- If you would like a copy of the course for delivery click **Request Copy**. The request will be sent to your organisation's TAFE VC Administrator who will process your request and advise you once it has been completed
- Customise the course to your needs if necessary
- Access your course and commence your teaching

## TAFE VC Courseware

### The World of Work

Designed for young people who have limited literacy and social skills needed for the workplace and limited knowledge of work/job requirements.

### Cybertots

The Cybertots Toolbox immerses the learner in a virtual child care centre allowing them to experience the role of a caregiver. Through problem-based projects and communication activities they learn the skills and knowledge necessary for working in the child care profession.

### Animation Toolbox

Designed to provide both background information for the animation production process as a whole, and information, demonstrations and activities for building the skills and knowledge necessary to carry out specific tasks within the animation industry.

### Hairdressing Toolbox

Aimed at a range of hairdressing learners, from pre-apprentice to the adult learner where the learners are presented with the theory through a series of holistic client learning scenarios at Cyber Hair Studio.
