\*\* **Certified** – fully tested, **Compatible** – should function properly, **Blank** – configuration not possible/ Use at own risk. Things will work as expected to a point, but unexpected behavior can and will happen".

**Internet Explorer 8 was tested in Standards Mode only. Internet Explorer 5 is not supported.**

- Mozilla Firefox 3.5 and Apple Safari 4 were not released with adequate time to test against this release. Therefore, they are not yet supported in Blackboard Vista.
- Firefox 1.0, 1.5, and 2.0 are not supported.
- Safari 3.x includes the latest Safari 3.2 version. Safari 1 and 2 are not supported.
- Google Chrome is not supported.

- In the past some clients have experienced trouble using the Sun Java Runtime Environment (JRE) 6. Vista/CE 8.0 SP3 was tested with both Sun JRE 5 and JRE 6.
